PRODUCT INFORMATION

cover guard® is one of the world's leading flame retardant temporary protection systems. Used by the marine, offshore, aviation, rail and construction industries to protect during new building, refurbishment, maintenance and outfitting stages.

cover guard® CG “Blue” Protective Materials Benefits:

- **Flame Retardant, Complies with NFPA 701**
- **Internationally Approved**
- **Easily Installed & Removed**
- **Resistant to Most Liquids & Chemicals**
- **Puncture & Tear Resistant**
- **Diamond Plate Pattern is Slip Resistant**
- **Durable & Strong**
- **Waterproof**
- **Reusable & Recyclable**

The cover guard® product range has been designed and developed to provide innovative temporary protection for all types of horizontal and vertical surfaces and finishes. The products can be used both internally and externally to protect against damage from trade, wear and tear and workmen's activity. **cover guard®** can also be used to wrap, cover, screen and contain all types of equipment, furniture, hardware, fittings and fixtures.

DIAMOND PLATE cover **guard**[®]

every way protected™

- cover guard[®] offers excellent protection for all types of surfaces including hardwood floors, stone, tile, terrazzo, paint, glass, bare metal, concrete and many more.
- cover guard[®] is extremely strong, durable, tear resistant and is resistant to water, most chemicals and most solvents.
- Flame retardant, complies with NFPA 701
- cover guard[®]'s unique deck plate pattern provides anti-slip / anti-trip characteristics - meets ASTM C 1028-07.
- The system is quick, easy and efficient to install and remove. Cutting and shaping is very simple, reducing labor time, storage and handling. Maintenance is also kept to a minimum.
- Compact rolls are easy to handle, particularly in confined spaces, helping keep storage space to a minimum.

SMOOTH FINISH cover (guard)[®]

every way protected™

- Used to cover and protect all types of flooring surfaces, and much more.
- Protects floors and hallways.
- The SF (smooth flat) version is available and is suitable for flooring, as well as decking in ship or vessel applications where the embossing profile may affect the soft flooring underneath.
- Easy to install – cut and size around objects.

The picture below is a representation of the “Smooth Finish” formulation.

Taffeta Finish is a non-standard option, available only by special order. This 6 mil FR product has an exceptionally smooth appearance with an extremely tight waffle pattern. It is offered exclusively in blue and is well-suited for applications such as covering machinery or draping.

MULTI-PURPOSE DUCT TAPE VERSATILE PERFORMANCE

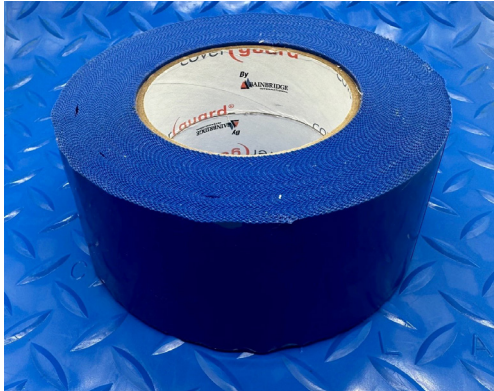

Industrial grade duct tape. Excellent for varied uses, especially seam sealing of **cover guard**[®]. Product Certification: Complies with UL 723. Primary suggested use is to seal the seam of two abutting lengths of **cover guard**[®].

Applications

- High quality maintenance tape in a variety of manufacturing environments.
- Broad range of applications in the construction industry.
- Seam sealing and hanging of **cover guard**[®].

Feature/Benefits

- High quality polyethylene coated cloth.
- Conforms well to irregular surfaces.
- Adheres to a wide variety of surfaces.
- Tears straight, hangs straight, curl resistant.
- Easy unwind.

TEMPORARY SURFACE PROTECTION - MARINE

cover guard® Flame Retardant

Blue diamond plate temporary surface protection for marine applications.
